## Fun Projects

[Halloween Haus](#) • A halloween-themed 2D sprite game. Pixel art & coding by me.

[Eyeball Forest](#) • A surreal interactive illustration. Artwork & coding by me.

[Music Doodles](#) • Experiments in music visualization.

[Animations on Vimeo](#) • Various animations I have worked on over the years.

## Tools & Software

Javascript • HTML/CSS • Python • Photoshop • Illustrator • After Effects • Animate • Unity

## Software Development Experience

[CBREBuild](#) • Senior Software Developer • New York, NY • 2017-2020

- I led feature development for multiple web-based projects at CBRE's real estate tech innovation lab, including an interactive 3D virtual real estate tour & a 2D floor plan design application. Technologies included front end web development, GPU programming, and experimental augmented reality.
- Delivered tech talks on various subjects to enrich the knowledge of the team
- Junior developer mentor

[The New York Times](#) • Software Developer • New York, NY • 2014-2017

- I architected a data pipeline to convert 160+ years worth (13 million) of archive articles from a legacy format to import into the CMS. See link to article below.
- I led development on a backend API that served millions of website requests per day.

[dMetrics](#) • Software Developer • Brooklyn, NY • 2013-2014

- I expanded the prototype of our client-facing web app into a release-ready product.

## Articles & Talks

[Building an AR Treasure Hunt](#)

[The Future of the Past: Modernizing The New York Times Archive](#)

[Intro to AR with Unity and Vuforia](#) • Presented to the Women Who Code NYC chapter

[How I Made Halloween Haus Minigame](#) • Presented to the Hack & Tell meetup group

[Virtual Fossil Fragmenter](#) • Presented at the AMNH Hack the Deep Hackathon

## Education

**Illustration** • Fashion Institute of Technology • New York, NY • 2020-2021

**Animation Bootcamp Certificate** • School of Motion • Spring 2020

**Computer Science MS & BA** • Boston University • Boston, MA • 2009-2013

Honors: College Prize for Excellence in Computing, Summa Cum Laude, Phi Beta Kappa

**Mandarin Chinese Language** • 10 years of study, including abroad in China for 1 year combined at China Institute, Beijing Language & Culture University, and Fudan University.
